Board OKs tire store, sets meeting to discuss trail

The Amity Township supervisors have voted to approve a preliminary/final plan for an STS Tire & Auto Center on Route 422.

The store is to be along the westbound lane, next to McDonald's.

The approval included several conditions, including signed certification of ownership and accuracy documents.

Supervisors Chairman Robert R. Yanos also announced Wednesday that the Leaf Creek Trail feasibility study will be the subject of a meeting in the township building on Feb. 24 at 7 p.m.

The township is seeking public comment on the \$25,000 study. Half the cost will be covered by a grant.

The trail would follow the creek from Cider Mill to River Bridge Road, giving walkers and bikers a connection to the Schuylkill River Trail.
